It would be an honor and privilege to serve the Sixth Circuit. I'm the Chief Deputy for the Sussex Commonwealth's Attorney's Office and have prosecuted for over a decade. I have a master's in business administration and law degree from Regent University. I have worked for private law firms and been a solo practitioner handling civil and criminal matters in state and federal courts.

I believe service is the gift that we give to mankind. I volunteer in my community and value people. My background in the public and private sectors gives me valuable insight and experience for the high ethical standards of this profession to serve on Bar Council.
